Hi Officer Scott,

Thank You so very much for the information and feedback. Are you able to loop in the Cal Trans representative to this information? Would any day work from January 8th through the 11th for everyone?

Senor Lead Officer Coats from 77th Division: The UHRC is attempting to address the below request from LAFD are you able to assist us at this location:

Briefly, we have a group of homeless people that are living inside a storm drain that is partially on city property with the remainder on Cal Trans/State property. The storm drain runs underground for roughly 300 feet. The fenced perimeter is in need of repair to secure the area from unlawful entry. The location is Olive St and Manchester Ave

We have responded to this location over the past year approximately twenty times for rubbish fires. Most recently, it has been noted that they are taking power illegally from a power pole at that location into the storm drain.

Major concerns: First; In the event of rain they will be in a location that could bring significant injury or death to people inside the storm drain. Second Due to the nature/location of the site rodent infestation is obvious; potentially leading to the spread of disease among the homeless as well as LAFD members. Third If they become ill or injured, due to the confined location we would have to upgrade to a confined space rescue, which by nature is a slow process due to procedural necessities that need to be in place as mandated by Cal OSHA before entry can be made to effect a rescue.

Re: 8510 Olive St Requesting CHP assistance (Oli...

Due to the dynamics of the location we can be on scene from 30 minutes to as long as 2 hours to extinguish these fires. We have attempted to resolve the matter through The City of Los Angeles Public Works, who has mitigated the city part of the issue. However, our Cal Trans partners need to secure their property as it once was or there will be no end to this matter.

THANK YOU everyone for your attention to this location.

Emada

Good afternoon Sir,

We will be more than happy to assist with this project. CalTrans had an incident last week at this same location and are currently planning with us to mitigate this issue.

This CalTrans crew works Tuesday – Saturdays. Let me know a date, preferably when CalTrans is working, and will be there to assist.

Subject: 8510 Olive St Requesting CHP assistance

Hey Sir,

I was wondering if you can assist in this coordinated effort in dealing with a manhole where the homeless have been residing. See comments below. From one of our Fire Captains.

Briefly, we have a group of homeless people that are living inside a storm drain that is partially on city property with the remainder on Cal Trans/State property. The storm drain runs underground for roughly 300 feet. The fenced perimeter is in need of repair to secure the area from unlawful entry. The location is Olive St and Manchester Ave

We have responded to this location over the past year approximately twenty times for rubbish fires. Most recently, it has been noted that they are taking power illegally from a power pole at that location into the storm drain.

Major concerns: First; In the event of rain they will be in a location that could bring significant injury or death to people inside the storm drain. Second Due to the nature/location of the site rodent infestation is obvious; potentially leading to the spread of disease among the homeless as well as LAFD members. Third If they become ill or injured, due to the confined location we would have to upgrade to a confined space rescue, which by nature is a slow process due to procedural necessities that need to be in place as mandated by Cal OSHA before entry can be made to effect a rescue.

Due to the dynamics of the location we can be on scene from 30 minutes to as long as 2 hours to extinguish these fires. We have attempted to resolve the matter through The City of Los Angeles Public Works, who has mitigated the city part of the issue. However, our Cal Trans partners need to secure their property as it once was or there will be no end to this matter.

Thank You

Respectfully,
